****Club Handicap** will be determined by subtracting 2 yards from your ATA handicap, if you have registered at least 500 handicap targets in the 2016 or 2017 registered seasons.** Minimum club handicap will be 3 yards less than your ATA handicap yardage. Minimum handicap yardage is 20 yards. Non-ATA members or those shooters that don't meet the target requirement will be assigned a handicap yardage of at least 23 yards with a minimum of 22 yards. Club handicap will be adjusted after each shoot by adding 2 yards for the top score, 1 yard for the 2nd place score and ½ yard for the 3rd place score. (If any of these scores did not play the special event then we will use top scores from the special event winners.) We will subtract 1 yard from all others provided that the special event option was entered.

Ties on all money will divide
